

## **(About AST)**

### **About AST**

Since 1980, the AST brand name has been known as a leading manufacturer of technology products for consumers and businesses throughout the world.

Today, AST continues to evolve to keep pace with the rapidly changing computer industry.

As part of our evolution, AST has discontinued direct selling on the Internet in North America. AST sales in the UK will continue without interruption. In the future, AST may provide computer and technology products through exclusive partnerships and select distribution channels.

AST will continue to honor all orders that are in process and customers that have purchased products from AST Computers, LLC. For support information specific to your product, click [here](#).

#### **NOTE:**

Prior to February 1999, all AST brand products were manufactured and sold by AST Research, Inc., which is now providing support under the business name ARI Service ([www.ari-service.com](http://www.ari-service.com)).

After January 1999, all AST brand products were manufactured and sold by AST Computers, LLC, which provides support under the business name AST ([www.ast.com](http://www.ast.com)).
